

**Senior Secondary Biology**  
**Topic: Reproductive Health**  
**Drag and Drop Exercise**

Dear Student

You have studied **Reproductive Health** in your class. Now you may play this learning game. Here Fifteen (15) names/terms related to the chapter are provided. Choose from the list the proper terms and place against the correct explanations. Enjoy and test yourself. Repeat to secure full marks.

Created by: Dr. Abhijit Saha, Training Associate (Biology), ZIET Bhubaneswar, INDIA

COITUS INTERRUPTUS      INTRA UTERINE INSEMINATION      INTRACYTOPLASMIC SPERM INJECTION

ZYGOTE INTRA FALLOPIAN TRANSFER      SAHELI      TUBECTOMY      AMNIOCENTESIS

GAMETE INTRA FALLOPIAN TRANSFER      VASECTOMY      HORMONE RELEASING IUD

LACTATIONAL AMENORRHEA      IN VITRO FERTILISATION      COPPER RELEASING IUD

ARTIFICIAL INSEMINATION      INTRA UTERINE TRANSFER

Sl	Description	Drop in this column
1	Foetal sex determination test based on chromosomal studies in amniotic fluid	
2	Once a week pill	
3	Withdrawal of penis from vagina just before ejaculation to avoid insemination	
4	Till the mother feeds child with breast milk chance of conception is almost nil	
5	CuT, Multiload 375 are examples of _____	
6	Progestasert, LNG 20 are examples of _____	
7	Sterilisation procedure in females	
8	Sterilisation procedure in males	
9	Fertilisation outside the body i.e. in a laboratory setup also called test tube baby	
10	Zygote or early embryo with up to 8 blastomeres is transferred into fallopian tube	
11	Sperm is directly introduced into the ovum under laboratory condition to develop the embryo	
12	Semen collected from husband / donor is introduced into vagina	
13	Embryo with more than 8 blastomeres is transferred into the uterus for further development	
14	Transfer of an ovum collected from a donor into fallopian tube of another female unable to produce it but has suitable condition for fertilisation and further development of zygote	
15	Semen collected from husband / donor is artificially introduced into the uterus
