

Calculate

1. $5032 + 1473 - 3006$

=

2. $805 \times 4 - 1965$

=

3. $1240 \div 5 \times 4$

=

List the prime numbers from 20 to 40.

Senaraikan nombor perdana dari 20 ke 50.

21	22	23	24	25	26	27	28	29	30
31	32	33	34	35	36	37	38	39	40

1.	2.	3.	4.
----	----	----	----

Complete the following number sentences with prime numbers.

Lengkapkan ayat matematik berikut dengan nombor perdana.

1. $\square + \square = 8$

2. $\square + \square = 20$

3. $\square + \square = 30$

4. $\square - \square = 2$

5. $\square - \square = 4$

6. $\square - \square = 10$

Rewrite them in ascending order.

36	23	2	9	63	1
----	----	---	---	----	---

--	--	--	--	--	--
