

1 Choose the correct words to complete the online chat.

- Seb** 17 Do you like your new phone, May?
- May** J Yes, I'm really pleased with it. It's got ¹**all** / **some** the apps I use on it. I wanted this phone because ²**both** / **few** of my cousins have it, and they love it.
- Seb** ³**Most of** / **Every** the shops are advertising the phone at the moment because it's new. The ads say it's amazing, so it ⁴**can't have** / **must have** been expensive.
- May** Well, it cost ⁵**many** / **a little** more than the other phone I was looking at. But I went to ⁶**a little** / **a few** shops in town and bought it at the cheapest place.
- Seb** You ⁷**shouldn't have** / **should have** bought it from a shop. You ⁸**must have** / **could have** bought it for less on the internet.
- May** I know that. But I prefer to buy things from shops. It ⁹**can't have** / **might have** been broken or damaged in the post. And anyway, it ¹⁰**might not have** / **must have** been much cheaper.
- Seb** Perhaps you're right. Anyway, enjoy it!

2 Complete the second sentence so that it means the same as the first sentence. Use 2–4 words.

- 1 These two blue jackets are really nice. (both)
_____ blue jackets are really nice.

Marie Yes, I think you're right.

- A It seems to me that you should.
- B In my view, that one is the best.
- C It might have been expensive.

Dialogue 5

Fran I don't like the phones in this shop.

Alison _____

Fran And they're expensive too.

- A They don't seem to be cheap.
- B I believe there are better shops in the city centre.
- C No, they don't look very nice.

Translation

7 **MATURA** Translate the Polish parts of the sentences into English.

- 1 *(Możliwe, że nie znalazłbym)* _____ your house without satnav.
- 2 We went to the beach last weekend *(mimo złej pogody)* _____.
- 3 Ian and Pete *(wyglądają jak bracia)* _____, but they are just classmates.
- 4 She *(ma mało wolnego czasu)*, _____, so she doesn't go out very often.
- 5 You *(na pewno poznałeś)* _____ Mark because you were both at my party last Friday.

Listening

8 **MATURA** 🎧 Listen to the radio programme. Are the statements true (T) or false (F)? Put a cross (x) under T or F.

	T	F
1 Olivia Shaw knows that every part of the Earth has a photo of it.		
2 More than 250 people died taking selfies between 2011 and 2017.		
3 All of the people who died fell from high places.		
4 Olivia thinks that many of the people who died took selfies to get followers on social media.		
5 A new app stops people going to dangerous places.		

Reading

9 **MATURA** Read the text and choose the correct answers.

You may have learned about the first man on the moon in your history lessons at school. Neil Armstrong must have felt amazing when he walked on the moon and took photos of it for the first time in 1969. So how did the USA get him there?

People usually talk about the technology that allowed the Americans to build the Apollo 11 spaceship, but what about the computers that were inside it? Before the 1960s, computers were very large. If you visit the Science Museum in London, you can see the Pegasus Computer, the world's oldest digital computer. Built in the 1950s, it was the size of a lorry. It was powerful, but scientists must have known that it was impossible to carry a computer this big to the moon. The Americans wanted to send a man into space before the Russians. To do this, they realised that they needed powerful but much smaller computers.

American scientists started to research how to improve their computer software and it took a lot of people and money to come up with the answer. When Apollo 11 finally went to the moon, it had state-of-the-art computers. And when Neil Armstrong talked to scientists on the Earth, and then left the moon to go back home, it was all with the help of these computers. At the time, these were the most impressive and smallest computers ever made.

Despite being so small and impressive, these computers had less power than you probably have on the mobile phone in your pocket. In fact, the most powerful phones today are more than 1,000 times faster than Apollo 11's computers.

The Apollo computers did a great job helping the spaceship fly to the moon and back, but they could not do half the things that you can do on your mobile phone. With a mobile phone, Armstrong could have downloaded films, streamed music and shared photos while he was on the moon.

It is clear that the first journey to the moon really was amazing.

- 1 The article says that people probably learn about _____ in their history lessons.
 - A space
 - B computers
 - C the first man on the moon
 - D technology
- 2 The Pegasus Computer is famous because
 - A it was used on a spaceship.
 - B it went to the moon.
 - C it was the first digital computer.
 - D it was very big.
- 3 The Americans put a man on the moon before the Russians because
 - A they developed smaller, more powerful computers.
 - B they talked to scientists.
 - C Neil Armstrong could talk to scientists on Earth.
 - D they had mobile phones.
- 4 Today's mobile phones are _____ than the computers on Apollo 11.
 - A bigger and more powerful
 - B a lot more powerful
 - C more expensive
 - D less powerful

5 What would be the best title for the article?

- A A history of phones
- B If only I had a phone
- C Will computers rule the world?
- D An amazing journey
