

Feb. 1-5 Station 1: Engage Human Interactions

Directions: Below you will see a picture of industry on the Mississippi River. These factories were built by humans. Use the picture and text below to answer the question. Remember to write in full and complete sentences.

Industry on the Mississippi River

Under the cover of darkness, industry continues to expel smoke into the wind currents along the Mississippi River. This image was captured in Muscatine, Iowa as part of a 110-day expedition down the entire length of the river.

Question 1: How do you think industry has affected the ecosystems along the Mississippi River? Type your answer below.

Question 2: Above is a picture of the bank of the Mississippi River before industry was established in the area. How does it compare and contrast to the first picture that you looked at? Type your answer below.
