*__Hang__ has two simple past forms with a change in meaning.

__Hung__ is used when we are not talking about someone sentenced by law to die by hanging.

__Hanged__ is used when we are talking about someone who by law is to be executed by hanging.

*__Lay__ is easily confused, because it is also the simple past form of Lie (Irregular).

*__Lie__ is another confusing verb. Lie can be irregular or regular with a difference in meaning.

Lie (Irregular) refers to the horizontal position to sleep whether on a bed or on the floor.

Lie (Regular) means not to tell truth.
