

Unit: 3 Lesson:1 Slow Change

Name:

Class:

Select the correct answer

Some of the ways that caused erosion or weathering:

Light

Wind

Sound

1- Example of slow change to Earth's landscape.

Weathering

Volcano

Earthquake

2- We can see erosion in nature in:

Ocean

Rivers

Lakes

3- Weathering changes some properties of rocks

Size

Color

Mass

4- The water is brown when erosion happened because it carries:

Ice

Twigs

Soil

Mark the following statements True or False

Fast change happens over many years. **T F**

Water can change the shape and size of rocks. **T F**

Tiny grains of sand cannot cause big change. **T F**

The only way that caused weathering and erosion is water **T F**

Give two examples of Slow change to Earth's landscape:

1.....

2.....

Good Luck 😊
