

Predicting and Forecasting

READ THE KEY EXPRESSIONS BELOW:

Key expressions used for predicting and forecasting

Asking for predictions:

- Is... likely to...? (*Is the office likely to close?*)
- Are ... likely to...? (*Are employees likely to quit?*)
- Do you think ...will...? (*Do you think we will return to the office soon?*)
- Do you expect...? (*Do you expect to see an increase in productivity?*)

Making predictions:

- ... will probably / definitely... (*Our employees will probably feel more motivated.*)
- ... probably / definitely won't.... (*It definitely won't be easy for people.*)
- ... is /are (more-less) likely / unlikely to... (*The office is unlikely to close completely. / "Teleworkers are less likely to get promoted because they are missing face-time with their bosses" - Adam Grant.*)

Expressing hope:

- I hope... will / won't .. (*We hope the new scheme will save the company a lot of money.*)
- Hopefully... will / won't ... (*Hopefully, our teleworkers will have similar results.*)

THINK AND CHECK:

Now, try to say each sentence in a different way using the word in brackets.

- 1 Do you think you'll be more productive? (expect)
 - 2 I'm sure we'll save money. (definitely)
 - 3 I hope I won't work in the evenings. (Hopefully)
 - 4 You'll probably find it difficult at first. (likely)
 - 5 I'm unlikely to work from home. (probably)
- Example: Do you expect to be more productive?*

Write them down in your notebook and then check your answers on the following page:

- 2- We'll definitely save money.
- 3- Hopefully, I won't work in the evenings.
- 4- You're likely to find it difficult at first.
- 5- I probably won't work from home
