

97. Chemical name and formula Support

Name:

CLASS: 5/

Q1: Choose the correct answer:

- Which of the following is the formula of Nitrogen monoxide?
 - N_2O
 - NO
 - N_2O_2
- What is the formula of dihydrogen monoxide?
 - $2HO$
 - H_2O
 - Fe_2O_3
- Which of the following is the formula of **salt [sodium chloride]**?
 - $NaCl$
 - H_2O
 - Fe_2O_3
-is an example for **chemical name**
 - Nitrogen oxide
 - sugar
 - rust
 - salt

Q2: Complete the table:

	Common name	Chemical Name	Chemical formula	Number of atoms	Number of elements
1	Water				
2	Rust				
3	Salt				
4	Baking soda
