5. _____ is the change of a **gas into a liquid**.

- a. Condensation
- b. Precipitation
- c. Evaporation

6. Water that is **stored underground** is called _____.

- a. run-off
- b. groundwater
- c. water vapor

7. Use the **word box** to **label** the water cycle stages.

Precipitation	Condensation	Evaporation
---------------	--------------	-------------

The sentences below show the steps that lead to the formation of a cloud.
Number the steps to place them in the proper order.

- ____ Water vapor cools and condenses around tiny particles.
- ____ Water is heated by the sun.
- ____ Water evaporates into the air.
- ____ Billions of water droplets join together.
