Put an 'X' to select if the statement is 'TRUE' or 'FALSE'.

The video gives you eight tips to help you stay safe online.	TRUE	FALSE
1. You don't need to be as nice to people online as you are in the real world.		
2. You should always think carefully about who will be able to see your photos and videos when you upload them to the internet.		
3. It's OK to post your personal details on websites that you trust and use often.		
4. You should make sure your social media pages are only visible to your friends.		
5. Most websites don't care about their users and don't want to know if you have a problem.		
6. Your password should be a short word with no numbers or punctuation, so you can remember it.		
7. You should ask someone you meet online to send you photos before you meet them in person.		
8. It's normal to see things online that make you uncomfortable, so just ignore it.		
9. You should always talk to a parent, teacher or friend about things you don't like or that upset you.
