A crossword puzzle grid with various arithmetic problems. The grid is composed of white squares for numbers and black squares for empty space. The problems are as follows:

- Across 1: $6 + \square = 7$
- Across 2: $\square + \square = 2$
- Across 3: $2 + \square = 6$
- Across 4: $\square + 3 = \square$
- Across 5: $\square + \square = 7$
- Across 6: $5 + \square = \square$
- Across 7: $\square + \square = 7$
- Across 8: $\square + \square = 8$
- Across 9: $\square + \square = 9$
- Across 10: $2 + \square = \square$
- Down 1: $\begin{matrix} + \\ 4 \\ = \end{matrix}$
- Down 2: $\begin{matrix} + \\ 7 \\ = \end{matrix}$
- Down 3: $\begin{matrix} + \\ 5 \\ = \end{matrix}$
- Down 4: $\begin{matrix} + \\ 1 \\ = \end{matrix}$
- Down 5: $\begin{matrix} + \\ 2 \\ = \end{matrix}$
- Down 6: $\begin{matrix} + \\ 3 \\ = \end{matrix}$
