*Families of every size are special*

How many people  
are there in your  
family?

With your aunts, your  
uncles and your  
too?

Or is your family a little  
bit small?  
Your mother and  
, that's all?

Families of every size are special,  
Big and small and in-between too.  
And everyone in your family is special  
'cos you love them and they love you.

How many people  
are there in your family?  
With your  
and great-grandmothers too?

Or is your family very, very  
small?  
You, your  
and yes, that's all?

Families of every size are special,  
Big and small and in-between too.  
And everyone in your family is special  
'cos you love them and they love you.
