

Estimating

An estimate is a guess. We estimate how much time something will take, how much money we will need, how tall things are and how many things are in a group without having to measure or count.

1. Lily has a few marbles. About how many marbles might she have?

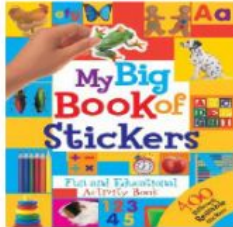

5

10

50

2. Ann has a large collection of stickers. About how many stickers might she have?

5

10

100

3. Kim bought a small bag of apples. About how many apples might she have?

10

50

100

4. Erica bought a box of pencils. About how many pencils might be in the box?

5

10

50

5. Nick had some balloons. About how many balloons might he have?

5 10 100

6. Jerry took some books from the library. About how many books might that be?

5 50 100
