

MULTIPLICATION AS REPEATED ADDITION

Let's practice

 **Ex.1:** Use counters to complete the missing numbers.

..... groups of

$$..... + =$$

$$..... \times =$$

..... groups of

$$..... + + =$$

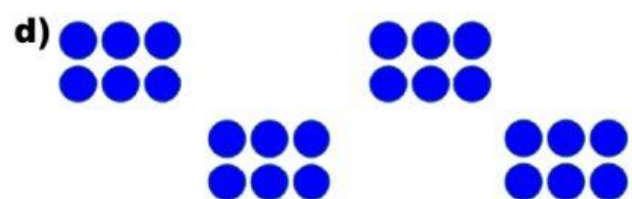

$$..... \times =$$

.... groups of ...

$$..... + =$$

$$..... \times =$$

.... groups of ...

$$..... + + + =$$

$$..... \times =$$

 **Ex.2:** Complete each number sentence.

a) $2 + 2 + 2 = \dots \times \dots$

b) $7 + 7 + 7 + 7 + 7 = \dots \times \dots$

c) $\dots + \dots + \dots = \dots \times 5$

d) $9 + 9 + 9 + 9 = \dots \times \dots$
