Double-Digit Subtraction

Solve the math problems and drag the correct answer to each math problem. Write the problems down and solve on paper before choosing the correct answer!

I love using poems and songs to help us remember math! Use this poem for the **one's place** when solving subtraction. **More on the top, no need to stop!**

tens	ones
8	7
-4	3

tens	ones
9	9
-2	5

tens	ones
3	7
-1	1

tens	ones
6	3
-5	2

tens	ones
1	9
-	5

tens	ones
2	4
-2	1

tens	ones
7	8
-3	6

tens	ones
4	9
-1	8

3	11	44	14
74	42	31	26

Here is the next part of the poem:

Number the same, ZEROS the game!

That means if the one's place has the same number, it will always equal 0!
Now try these problems!

I did the first two as an example for you.

tens	ones
8	2
-1	2
7	**0**

tens	ones
5	9
-2	9
3	**0**

tens	ones
3	7
-1	7

tens	ones
8	3
-2	3

tens	ones
1	5
-	5

tens	ones
9	4
-	4

tens	ones
7	8
-3	8

tens	ones
6	1
-1	1

50	**60**	**30**	**40**
70	**20**	**90**	**10**
