

Activity 2

1 Look at the diagram. Write digit in its place value.

thousands	hundreds	tens	ones

thousands	hundreds	tens	ones

thousands	hundreds	tens	ones

2 Write the place value for each underlined digit.

3 Write the digit value for each digit in these numbers.

Activity 3

1 Partition the numbers according to place value.

a $9\ 145 = \square$ thousands + $\square$ + $\square$ + $\square$ ones

b $8\ 037 = \square$ thousands + $\square$ hundreds + $\square$ + $\square$ ones

2 Partition the numbers according to digit value.

a $1\ 056 = 1\ 000 + \square + \square + \square$

b $3\ 429 = \square + \square + \square + \square$

3 Write each number that has been partitioned below.

a $4\ 000 + 600 + 30 + 1 =$

4 631

b $1\ 000 + 10 + 1 =$

c $3\ 000 + 8 + 10 =$

d $90 + 5\ 000 + 800 + 0 =$

e $600 + 2 + 7\ 000 =$
