SOCIAL ENGINEERING

Phishing Challenge – Part 1

Directions: One of these is a phishing email. Click on the **5** differences between these two emails. Be sure to investigate carefully to find all **10** of them (5 on each email). Once you are done finding all the differences, place the phish image at the bottom of the page into the box of the email that you think is the suspicious phishing email.

Subject: HELP!!!

I am writing this with tears in my eyes. Sadly, during my vacation too Japan, my backpack was stolen at the park bye the hotel where I am staying at. My wallet and phone were in my backkpack, but thankfully, I had my passport in my jacket pocket.

My flight home leaves in a few hours but there is a problem with paying my hotel bills because of my stolen credit card. The hotel will not let me leave until my hotel bill is paid.

Please send me $200 to the Western Union closest to Mount Fuji right away, so I can pay the hotel and make it onto my flight to return home. I'll pay you back with as soon as I get back, I promise.

Subject: HELP!!!

I am writing this with tears in my eyes. As you know, I am on my Japan vacation right now. Sadly, during my vacation my backpack was stolen at the park by the hotel where I am staying at. My wallet and phone were in my backpack.

Thankfully, I had my passport in my jacket pocket. My flight home leaves in a few hours, but I am feeling a bit scared because I am not sure how I will get to the airport without my wallet and phone.

Will one of you please give me at the hotel? If you call the hotel front desk and ask for me, they will connect you to my room. I am not sure what to do. I will pay you back for the cost of the phone call and buy you lunch next time we hang out when I get back, I promise.

- Kelley
