

## Grade 6 – Area of compound shape

1. The coloured shape is a typical house structure in a town in Europe. It consists of a square, a rectangle and a triangle, as shown to its right..  
Work out the area of the original structure.

Area of the square =  cm<sup>2</sup>

Area of the rectangle =  cm<sup>2</sup>

Area of the triangle =  cm<sup>2</sup>

ÁREA + ÁREA + ÁREA =  cm<sup>2</sup>
