

Year 5 Maths  
Area and Perimeter

1. Find the area and perimeter of the following shapes in the grid.

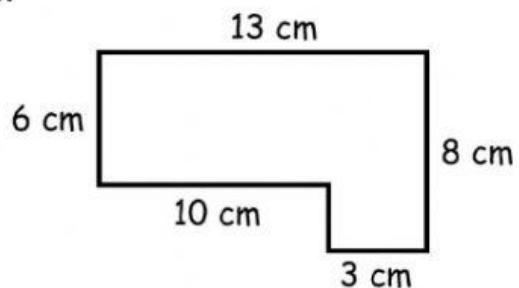

2. Find the area and perimeter of these compound shapes.

a.

b.

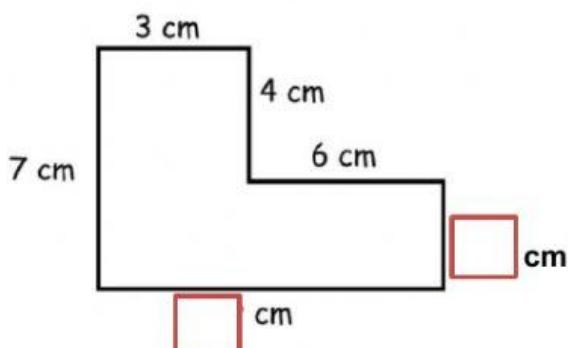

a. **Area** = .....  $cm^2$

**Perimeter** = ..... cm

b. **Area** = .....  $cm^2$

**Perimeter** = ..... cm

3. Find the missing sides and then the area and perimeter of the compound shape.

**Area** = .....  $cm^2$

**Perimeter** = ..... cm

4. A square shaped room has a length of 4m. What is its area?

$$\text{Area} = \text{.....} \times \text{.....} = \text{.....} m^2$$

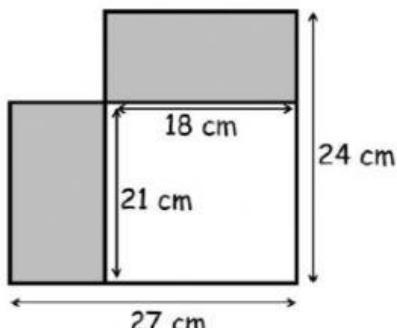

5. Isabel is making a display on a board 4m by 2m.  
She needs a ribbon to decorate the border of the display.

What length of ribbon does she need?

Length of the ribbon = ..... m

6. Danny has a rectangular rose garden of 8m by 10m.  
If each bag of fertiliser covers area  $16m^2$  of the garden.  
How many bags does he need to cover the whole garden?

7. Find the area and the perimeter of the shaded section.

**Area** = .....  $cm^2$

**Perimeter** = ..... cm
