

Fill the energy diagram to show the energy transfers.

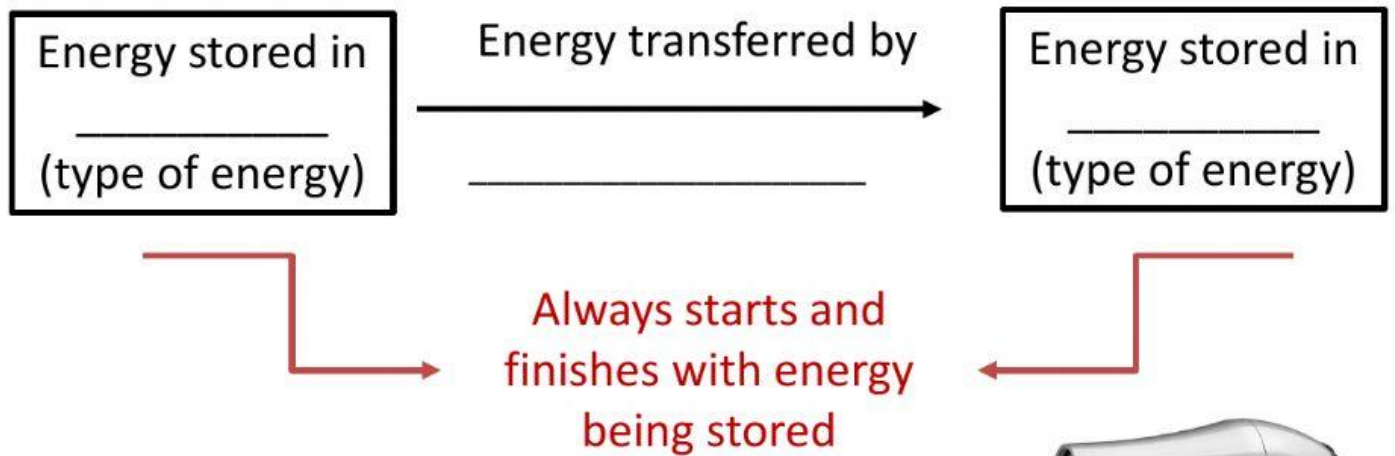

Energy stores: chemical, kinetic, atomic, thermal, strain, GPE, nuclear.

Energy transfers: heat, light, electricity and forces.

Fill the energy diagram to show the energy transfers.

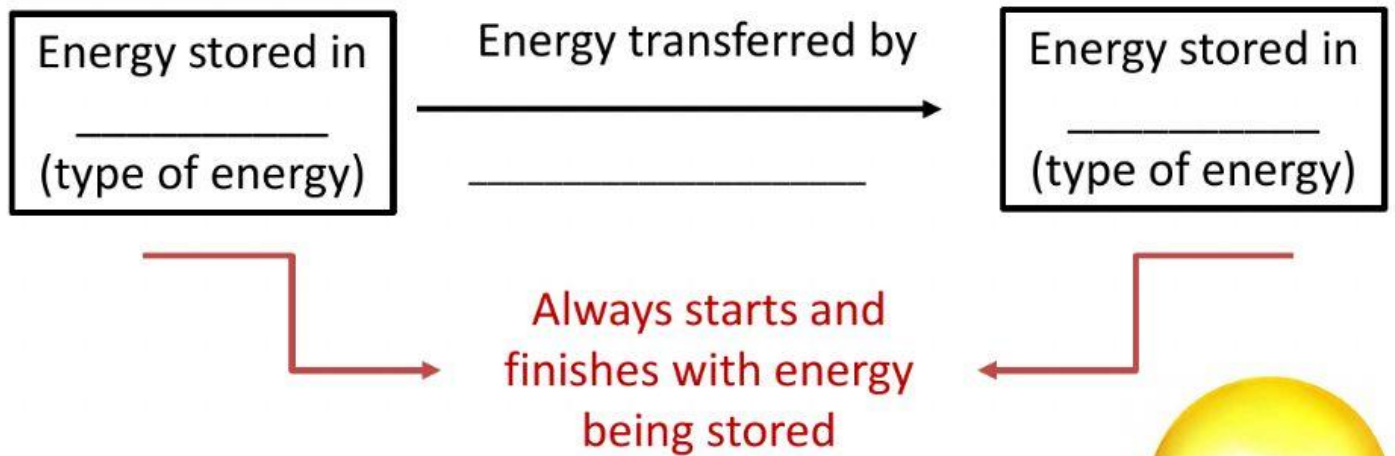

Energy stores: chemical, kinetic, atomic, thermal, strain, GPE, nuclear.

Energy transfers: heat, light, electricity and forces.

Fill the energy diagram to show the energy transfers.

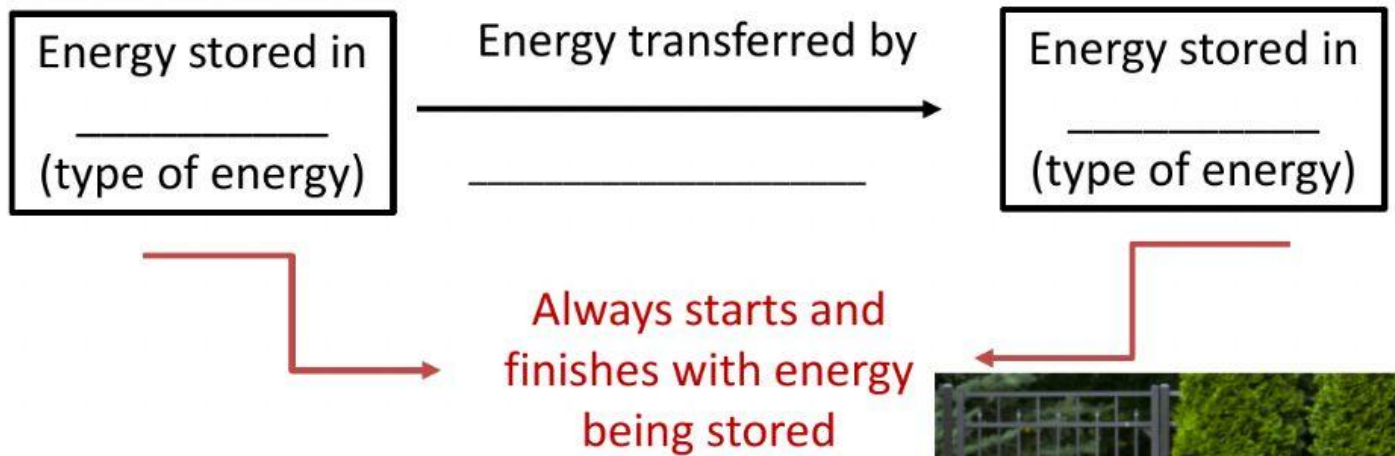

Energy stores: chemical, kinetic, atomic, thermal, strain, GPE, nuclear.

Energy transfers: heat, light, electricity and forces.

Fill the energy diagram to show the energy transfers.

Energy stores: chemical, kinetic, atomic, thermal, strain, GPE, nuclear.

Energy transfers: heat, light, electricity and forces.
