

Listen to a foreigner telling their family about some wonderful features of our country. Then, order the pictures from 1 to 13.

 Hey darling! So happy to hear from you! Tell us about your trip. Are you having fun? 	
 Due to its location near the Equator and the shape of the Earth, Chimborazo is THE CLOSEST POINT TO THE SUN! and its top is the farthest point from the center of the planet. It is really a beautiful mountain.	
 Bye baby have fun and take care. 	
 They are so beautiful! I bought some for all of you. 	
 Oh yeah! It has been great. I have recently learned some things which I had not known before coming. 	

 Well, he said it was called Panama Hat so I thought it was made there but surprisingly I learned that these beautiful straw hats which are known and valued worldwide are made in the Ecuadorian coast! BY ISHEL ORELLANA	
 Now I have to say bye because I am going to visit the middle of the world town! I will tell you more about it soon and I promise I will send pictures as soon as I get there.	
 Do you remember that beautiful hat my friend wore at the game last summer? BY ISHEL ORELLANA	
 I'm going there in about two weeks but previously, I am trying to learn more about it.	
 Besides that, last week I visited a dormant volcano called Chimborazo. I was astonished when the guide told as that even though Everest is the highest mountain from sea level. BY ISHEL ORELLANA	

 Really? That is impressive we did not know it! What about Galapagos Islands we have heard that place is a paradise. When are you going there? 	
 Here comes a really interesting fact! Did you know that Charles Darwin raised his Evolution Theory there? Animals of Galapagos are unique and have adapted to the islands' special conditions so he noticed living things adapt and evolve! 	
 Hi there! How are you guys? How is everything going over there?
