

WORLD BEE DAY

<https://www.youtube.com/watch?v=f9zUsEln8lg>

Each hive has only one **QUEEN BEE**. She is the biggest bee. She is the only bee who lays eggs.

The **WORKER BEES** make food. They build the hive. They guard it. They look after baby bees.

DRONE BEES are male bees. They do not work. They mate with the queen bee.
