The Amazon Rainforest

The Amazon rainforest is the biggest forest in the world. It is found in South America, with most of the forest being in the country of Brazil.

The Amazon rainforest is very important for lots of reasons. It makes some of the Earth's air, which humans need to breathe. It is also home to lots of different kinds of plants and animals. Parrots, monkeys, dolphins and sloths all call the area their home.

Many of the animals in the Amazon are in trouble. Trees are being cut down and fires are starting. Luckily, there are people who are working hard to make sure the animals in the Amazon get the help they need.

12. The Amazon rainforest is located in ….
