

أجد ناتج الجمع مستعملاً طريقة الإشارات:

$$70 - \dots = (40 + 30) - \dots = (40 -) + 30 - \textcircled{5}$$

$$\dots = (\dots) = (18 -) + 23 \textcircled{6}$$

$$\dots = (\dots) = 14 + 49 - \textcircled{7}$$

$$\dots = (\dots) = 500 + 300 - \textcircled{8}$$
