Tourism has changed a lot over the past few \_\_\_\_\_.

It is actually quite a new thing. It probably didn't exist fifty years ago.

The only people who travelled then were \_\_\_\_\_, and they were called \_\_\_\_\_. I guess tourism started in the late 60s and early 70s when airplane travel became cheap. The idea of

\_\_\_\_\_ travel suddenly became very \_\_\_\_\_ with millions. Everyone wanted their two weeks of sun in the summer. Tourism today is a multi-billion-dollar \_\_\_\_\_.

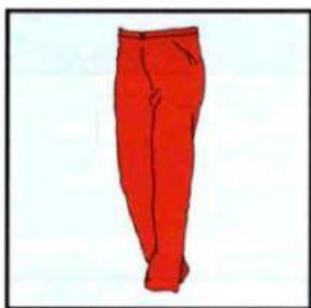

There is hardly a corner of the Earth untouched by tourism. The number of tourists is also \_\_\_\_\_. Millions of people from Russia, India and China are now taking vacations.

Tourism really is making the \_\_\_\_\_ a global village. I'm not sure if this is a good or a bad thing
