***IV. Read the passage, then decide if the statements that follow it are* TRUE *or* FALSE. (1.5 pts)**

On July 20, 1969, two American men landed on the moon. Their names were Neil Armstrong and Edwin Aldrin. The first thing the men found was that the moon is covered with dust. The dust was so thick that the men left footprints where they walked. Those were the first marks a living thing had ever made on the moon. And they could stay there for years and years. There is no wind or rain to wipe them off.

The two men walked on the moon for hours. They picked up rocks to bring back to earth for study. They dug up dirt to bring back. They set up machines to find out things people wanted to know. Then they climbed back into their moon landing craft.

Next day the landing craft roared as the two men took off from the moon. They joined Michael Collins in the spaceship that waited for them above the moon. Then they were off on their long trip back to earth. Behind them they left the plains and tall mountains of the moon. They left the machines they had set up. And they left footprints that may last forever.

19. Neil Armstrong and Edwin Aldrin were the first men on the moon.

20. Footprints were the only things that the two men left on the moon.

21. Their trip to the moon lasted one day.

22. Machines were set up to help them collect information about the moon.
