

LOS ÁNGULOS

ELEMENTOS DEL ÁNGULO

TIPOS DE ÁNGULOS

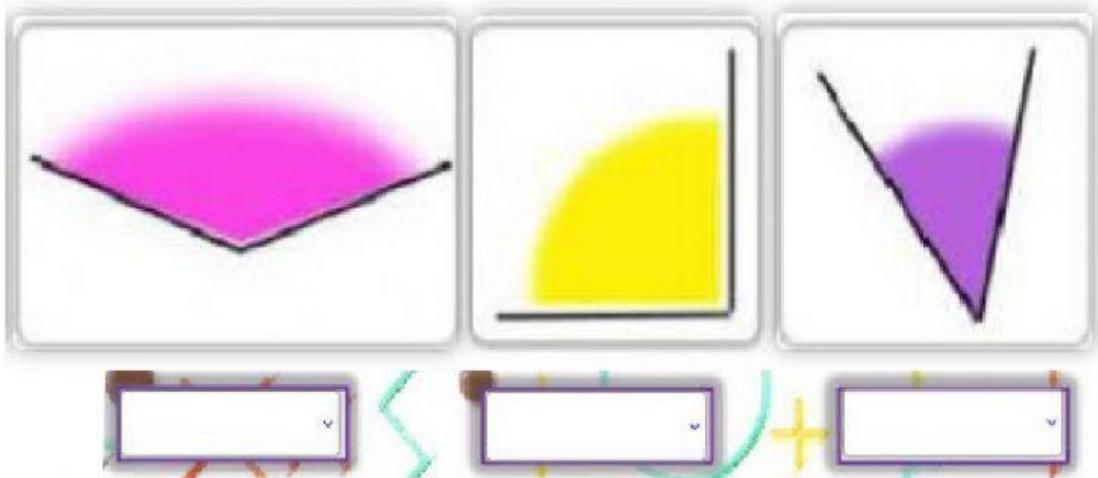

Escribe qué tipo de ángulo es.

Three boxes contain different types of angles:

- The first box contains a cyan-shaded obtuse angle.
- The second box contains a yellow-shaded reflex angle.
- The third box contains a green-shaded straight angle.

Below the boxes are three empty input fields for writing the answers, connected by arrows pointing from each box to its corresponding field. The fields are color-coded to match the angles: cyan, yellow, and green.

Este ángulo es un ángulo .

Este ángulo es un ángulo .

Este ángulo es un ángulo .
