

Interpreting visual

1. The following tables describe bill-paying habits and attitudes to unpaid bills, (1 point) by age group.

Table 1 Proportion of people who are worried about their unpaid bills, by age group.

	Worried
Under 30	74%
30-45	66%
45-60	33%
Over 60	20%

Table 2 Proportion of people who usually pay their bills on time, by age group.

	No
Under 30	65%
30-45	58%
45-60	30%
Over 60	15%

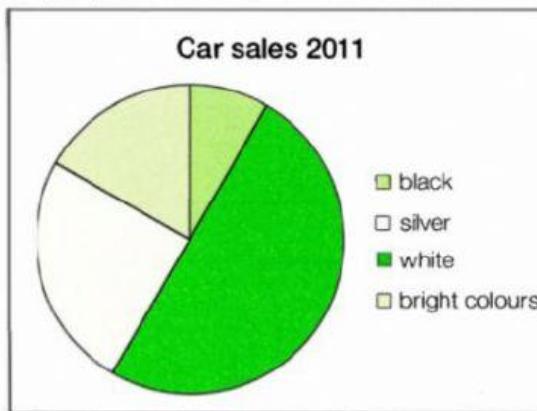

This data comes from a survey. A researcher asked the questions 'Are you worried about your unpaid bills?' and "Do you pay your bills on time?" They asked thousands of people, and then put the results into these tables.

Write TRUE, FALSE or NOT GIVEN

Question 1:

1. The majority of people under 30 are worried about their unpaid bills. (1 point)
2. More than half of people aged 30-45 are worried about their unpaid bills. (1 point)

5. The minority of people aged 45-60 pay their bills on time. (1 point)
6. The majority of people aged 45-60 and over 60 pay their bills on time. (1 point)
7. The older someone is, the more likely they are to pay their bills on time. (1 point)
8. There seems to be a change in behaviour and attitude around age 45. (1 point)

Task: The following charts show the favourite colours for cars among men and women, and the proportion of actual car sales, in 2011.

Survey results: favourite car colour

Colour	Men	Women
black	80%	10%
white	5%	10%
silver	10%	55%
bright colours	10%	25%

1. Bright colours were not well liked overall and ... (1 point)
 - women favoured silver cars.
 - they were also not a big seller.
 - the sales figures suggest they didn't actually buy this colour.
 - it had the highest sales.
 - not with men.
2. The survey results show that bright colours were reasonably popular with women (1 point) but ...
 - women favoured silver cars.
 - they were also not a big seller.
 - the sales figures suggest they didn't actually buy this colour.
 - it had the highest sales.
 - not with men.
3. Most men preferred black cars, while ... (1 point)
 - women favoured silver cars.
 - they were also not a big seller.
 - the sales figures suggest they didn't actually buy this colour.
 - it had the highest sales.
 - not with men.
4. Most men claimed that black was their colour of choice, however ... (1 point)
 - women favoured silver cars.
 - they were also not a big seller.
 - the sales figures suggest they didn't actually buy this colour.
 - it had the highest sales.
 - not with men.
5. Although white was not rated very highly by either group, ... (1 point)
 - women favoured silver cars.

- they were also not a big seller.
- the sales figures suggest they didn't actually buy this colour.
- it had the highest sales.
- not with men.
