Science Final Exam Revision

Grade 2

2022-2023

Name: ----------

Grade: ----------

LIVEWORKSHEETS

1. **An opening in the Earth's crust that allows hot magma, volcanic gas, or ash to escape is a**

a) Volcano

b) Earthquake

c) Landslide

2. **The natural process of breaking down rocks into smaller pieces is called**

a) Erosion

b) Weathering

c) Deposition

3. **The natural process of moving rocks and sand from one place to another is called**

a) Erosion

b) Weathering

c) None of the above

4. **To prevent wind erosion, farmers can**

a) Use fences.

b) Plant a windbreak.

5. **It is a large body of salty liquid water.**

a) Pond

b) Lake

c) Ocean

6. **A land that is all surrounded by water is a**

a) Mountain

b) Island

c) River

LIVEWORKSHEETS

7. **A high land that has pointed top and steep sides is a**

a) Hill

b) Mountain

c) Valley

8. **The movement of rock and sand to a new place is called**

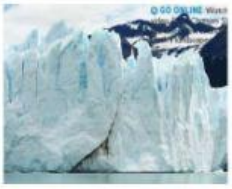

a) Erosion

b) Deposition

c) Weathering

9. **A large sheet of ice that can melt and change the land is called a**

a) Magma

b) Lava

c) Glacier

10. **Lava is the liquid that flows out of the**

a) River

b) Volcano

c) Lake

11. **What causes the change in the picture?**

a) Landslide

b) Earthquake

c) Volcano

12. **Erosion happens in the desert due to**

a) Water

b) Wind

c) Glaciers

13. **Erosion happens on the beach due to**

a) Water

b) Wind

c) Glaciers

LIVEWORKSHEETS

14. If you put the chalk in water, it will

a) Stay the same.

b) Change color in water.

c) Break down in the water.

15. What do a waterfall and a river have in common?

a) salt water

b) warm water

c) flowing water

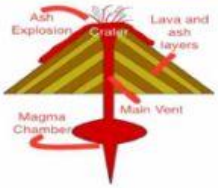

16. What do a pond and a lake have in common?

a) Both are surrounded by land.

b) Both are salty water bodies.

c) Both have flowing water.

17. What is the hot liquid inside the volcano called?

a) Magma

b) Syrup

c) Rainwater

18. What is the hot liquid outside the volcano called?

a) Lava

b) Magma

c) Syrup

19. Slow changes that happen to Earth's surface are:

a) Volcano and Earthquake

b) Weathering and erosion

c) Mountain and waterfall

20. Some <u>fast</u> changes that happen to Earth's surface are:

a) Rain and snow

b) Erosion and weathering

c) Earthquake and volcano
