# FASHION BLOGGER

Read the article and do the multiple choice.

I've loved clothes since I was about five. Each morning, I spend time thinking about what to wear. My mum gets angry sometimes and tells me to hurry up, but I don't think it's something you can decide quickly. It's far too important

Last year, after reading a fashion blog by Rachel, a 19-year-old student. I decided to start one myself. Almost immediately, I posted my first blog. I was really pleased when friends said they loved it – they especially liked the video I made called "A World of Fashion."

I post something new each day. I keep a fashion diary, where I describe what I'm wearing and every week I also post a photo of myself in my favorite clothes. Most people say they like the photos. But, for me, the best part is getting messages from fans.

My parents think it's good for me to have a hobby, and I still do all my homework, so they're happy for me to do the blog. The only thing they tell me is to be careful about what I read online. They tell me not to worry if people post things that I don't agree with.

I'm not really interested in becoming a fashion model – I think I might get bored with someone taking my photograph every day! Maybe, when I'm older, I'll start my own clothes company, but before that I'm going to do a fashion course at college. I'm already trying to choose the best one!
