

Community, Population & Habitat

Identify and **write** where each description goes
(use the numbers to go in order e.g. 1, 2, 3...)

Community	Population	Habitat

3. Five ducks in a pond

1. A coral reef

2. Three baby turtles running from the sand to the ocean.

4. Two ducks, a frog and three lizards

8. Three lizards on a rock.

5. The open sea/ocean

7. A hole in a tree

6. A giraffe, family of lions and a hyena.

9. Two ladybugs fighting on a leaf.

Terrestrial ecosystems:

Coniferous forests have _____ trees/plants, and _____. These forests are usually in _____ areas.

Temperate deciduous forests have _____ trees/plants, and _____. These forests are usually in _____ areas.

Mediterranean forests have _____ trees/plants, and _____. These forests are usually near the _____ Sea.

Tropical rainforests have _____ trees/plants, and _____. These forests are usually in _____ areas.

Tropical rainforests:

What living thing does it have the most of? _____

Grasslands are _____ and _____ areas covered with grass.

In more **tropical zones** these are called _____.

In more **colder zones** these are called _____.

Deserts are the _____ and _____ places on earth. Plants that live there are _____ and animals include _____.

Tundra is a cold area near the _____. Plants that live there are _____ and animals include _____.

Aquatic ecosystems

Join the different aquatic ecosystems with their type **saltwater** or **freshwater**.
(use the numbers to go in order e.g. 1, 2, 3...)

Saltwater		Freshwater
	1. seas

<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	3. lakes	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	4. shoreline	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	5. Kelp forests	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	6. standing water	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	7. Coral reefs	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	8. Open ocean	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	9. rivers	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	10. oceans	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>
<div style="background-color: #0056b3; height: 30px; width: 100%;"></div>	11. flowing water	<div style="background-color: #a0d0d0; height: 30px; width: 100%;"></div>

Artificial ecosystems

Select the correct answer:

Artificial ecosystems are natural environments

Artificial ecosystems are not natural environments

Identify and **write** where each description goes
(**use the numbers to go in order e.g. 1, 2, 3...**)

Aquatic	Terrestrial	Urban

3. An aquarium in your house.

2. A playground with trees

1. An ant farm

9. A terrarium in your bedroom.

8. A bird's nest made on a fence.

7. A fish farm

6. A cactus plant in your living room.

5. A tank where you keep your pet snake.

4. A tunnel created by a mole in your garden.
