

Name: _____ Date: _____

Excel - Cell Address

A cell address, also referred to as a cell reference, is more than just a name that identifies the cell. It also gives you direction on how to find a specific cell. For example, cell A1 can be found in Column A and in row 1.

Instructions: The table below has the names of a few Bahamian National Heroes. Locate them and write the cell address for each name on the line provided.

	A	B	C	D	E
1	<i>Bahamian National Heroes</i>				
2		Sir Lynden Pindling	Mabel Walker		
3			Sir Albert Miller		
4	Sir Milo Butler			Cecil Wallace Whitfield	
5				Dame Doris Johnson	
6		Sir Randol Fawkes			
7	Mary Ingraham		Rev. Dr. Miles Munroe		
8		Stafford Sands		Dr. Cleveland Eneas	
9
