

Fun time with my friends

When growing up, I lived in a location where the lakes froze. This provided a perfect place to play **soccer / ice hockey**. All my friends had their own hockey sticks, and there was always a puck to use. After winter was over, and the weather turned warmer, we would practice **archery / gymnastics**. Shooting arrows at a target was great fun, and it often turned into a competition. **Cycling / Kayaking** was something my friends and I loved to do as well. We used to race our bicycles all around the neighborhood. Now that we are older, we like to go **motorcycling / hiking** and travel further distances. If the weather outside is bad, we like to play **hopscotch / ping pong** while my sister and her friends practice **gymnastics / basketball** indoors.
