### Where I live

My house is near a small village in the (1) **mountains** / **river**. One of the best things about it is the amazing views we have. We can see a lot of (2) **hill** / **sky**, so that means it's a great place to look at the stars at night. We also know what the weather is going to be like. If we see dark (3) **clouds** / **ice** in the distance and the wind is coming from that direction, we know it's going to be (4) **rainy** / **rain** soon so we have time to get ready! Living so high up means we get a lot of bad weather. ☹ It's important (5) **to** / **that** make sure we don't leave the windows open because if it's (6) **foggy** / **windy**, they can get broken. In the winter, we get (7) **thunderstorms** / **snow** before most people too – it's beautiful to wake up and see all the trees in the (8) **forest** / **beach** covered in white, but sometimes we can't get to school!

New Zealand is an amazing country. It is very hot in the north and there are beautiful (1) \_\_\_\_\_ full of trees. There are also amazing, sandy (2) \_\_\_\_\_ and the sea is lovely and warm. It rains a lot – sometimes we have big (3) \_\_\_\_\_ – so there is a lot of water. The longest (4) \_\_\_\_\_ is the Waikato. It is 425 kilometres long and it's a great place for sailing. In the sea, there are lots of small (5) \_\_\_\_\_. My favourite is Kapiti. It's about five kilometres away and you can go there by boat. There's a small (6) \_\_\_\_\_ on the island. It's only about 500 metres high, so it's easy to walk to the top.

The highest (7) \_\_\_\_\_ in New Zealand are in the south. It's colder there and there is usually (8) \_\_\_\_\_ on the top of them. The highest mountain is over 3,700 metres high. It's very cold at the top, but sometimes the (9) \_\_\_\_\_ is clear and blue and there is an amazing view.
