Reflective Symmetry Properties.

1. Which of the following is true for reflection symmetry?

   a. Mirror symmetry
   b. Line symmetry
   c. Rotational symmetry
   d. Both A and B

2. The lines of symmetry for regular pentagon is…

   a. Two
   b. Three
   c. Four
   d. Five

3. How many lines of symmetry does a regular hexagon have?

   a. Four
   b. Five
   c. Six
   d. Seven

4. How many lines of symmetry does a butterfly have?

   a. One
   b. Two
   c. Three
   d. Four

5. Which of the following shapes does not have a line of symmetry?

a.

c.

b.

d.
