My room

My name is Ioana and I love my room.

In my room there are a large bed, two night tables, two wardrobes, a carpet, a lamp and a T.V. Next to the window I have got a desk and a comfortable chair where I do my homework. Between the wardrobes there is a beauty table at which I feel like a princess. There is a bookcase in the corner next to my right night table.

I don`t spend much time in my room. I usually do my homework and paint here.

I love my room, but my favourite is the living room because it`s the biggest in the house.
