

USING LINKING WORDS IN A PROCESS DESCRIPTION

When we describe a process, we can use linking words to make clear the order in which the stages of a process occur. Linking words include: **first, next, then, after that, finally.**

Complete the text with the suitable words

After that Finally First Next (x2) Then

AGUA DE JAMAICA

Agua de Jamaica is a refreshing and delicious drink that is very easy to make. This recipe makes about two liters. _____, boil about four cups of water, and _____ add half a cup of flor de Jamaica and half a cup of sugar. Stir well and leave the mixture to boil for two more minutes. _____, take it off the heat and let it stand for about 10 minutes. _____, strain the mixture into a container. _____, add four cups of cold water. Put it the refrigerator to cool. _____, pour the drink into a glass with ice and enjoy!
