

## Sequencing 2

### 1. Space

1. It's a place that sparks our imagination and makes us want to keep exploring and understanding the universe.
2. Space is a vast and fascinating place that goes beyond our planet.
3. Exploring space helps us learn new things, create better technology, and makes us feel excited to discover more.
4. It is filled with galaxies, stars, and incredible things that amaze us.

### 2. Warm weather

1. I usually hide behind a big bush.
2. I play under the sprinkler with my brother.
3. I love it when the weather is warm!
4. The warm weather allows me to play outside.
5. We run through the water and scream each time!
6. At night, I play hide and seek with my friends.

### 3.

1. We use gadgets to talk to people right away, find information quickly, and have fun with games and movies.
2. Gadgets keep getting better and better, giving us new ways to do things and making our lives easier and more enjoyable.
3. They are small devices like phones, tablets, and laptops that do lots of different things.
4. Gadgets are really important in our lives today.

### 4. Mount Everest

Climbing Mount Everest is a big challenge. It's a very tall mountain, reaching 8,848 meters high.

---

Finally, reaching the summit is a huge achievement, but climbers must be careful and work together to stay safe.

1. Climbers have to be strong and train a lot.
2. The higher they go, the harder it gets, with dangerous obstacles and low oxygen.
3. They start from a base camp and slowly climb up, stopping at camps along the way.
4. The weather is tough, and they need special gear like warm clothes and oxygen tanks.

5.

The environment is the world around us, including the air we breathe, the water we drink, and the land we live on. \_\_\_\_\_

\_\_\_\_\_ It's essential to remember that small actions, like turning off lights when not in use or using reusable bags, can make a big difference in preserving our environment for future generations.

1. Pollution is harmful to the environment and can damage ecosystems and harm animals.
2. Planting trees and protecting natural habitats also supports a healthy environment.
3. It is important to take care of the environment because it sustains life and provides us with resources.
4. We can help by reducing waste, recycling, and conserving energy.

6. Travelling Abroad

Emma: Hey, have you ever traveled abroad before?

Sara:

Emma:

Sara:

Emma:

Sara:

1. It was incredible! The Eiffel Tower was so tall, and the Louver Museum had famous paintings like the Mona Lisa.
2. Yes! I was lucky enough to go on a family trip to France last summer.
3. That's amazing! What was it like?
4. Wow! I would love to see those famous landmarks one day.
5. No, I haven't. But I've always dreamed of visiting other countries. Have you?

## 7. Recycling

Alex: Have you heard about recycling?

Emily:

Alex:

Emily:

Alex:

Emily:

Alex:

Emily: I never realized how much we can recycle.

1. Well, we separate recyclable materials like plastic, paper, and glass from our regular trash. Then, they get taken to recycling centers to be processed and made into new products.
2. Exactly! Recycling helps to protect the environment by reducing waste and conserving resources.
3. That's cool! So, what kinds of things can we recycle?
4. We can recycle plastic bottles, newspapers, cardboard boxes, and even aluminum cans.
5. That's really important. How does it work?
6. I have heard about it. It's when we collect and reuse materials instead of throwing them away, right?
