Pancakes are popular all around the world, and in different countries people eat them with different things and at different meal times. They can be thick or thin, big or small, and you can put jam, lemon, sugar or chocolate on them. You can put anything you like on them.

The great thing about pancakes is that they are quick and easy to make, and you don't need many ingredients. You only need a cup of milk, an egg, a cup of flour, a large spoonful of sugar and a lump of butter.

First, you have to make the pancake batter. You mix the flour and sugar in a bowl. Before you add the egg, you have to beat it. That means you have to mix it really hard. After you beat the egg, add it to the bowl and mix it with the flour and sugar. When there are no lumps, your batter is ready.

Next, melt some butter in a hot pan, and then pour the pancake batter into the pan. You only need a minute for one side of the pancake to cook, then flip the pancake over to the other side and cook for a minute. You now have a delicious pancake!
