

▶ 15 A PLACE CALLED HOME

These four families are from Seoul, South Korea. Their apartments are in Evergreen Tower. There are twenty-five floors, and every apartment is the same. There is a living room, a kitchen, a bathroom, and there are two bedrooms.

In all the photos, there are parents and children. There is always a couch on the right, and there are pictures on the walls. But there are some differences; for example, there isn't a rug in every apartment, and the color and style of the furniture is different.

2 Read the article about the homes in the photos. Are these things (a–e) the same (S) or different (D) in the four homes?
