

## Reading and sequencing

---

Read the story:

### Planting Flowers

To plant a flower garden, I weed the flower bed first. Then I rake the soil to loosen it. Next I dig little holes for the bulbs. Then I put the bulbs in the holes and cover them with soil. When I am finished planting the bulbs, I water the garden so the flowers will grow.

Now put the events in order 1-5:

\_\_\_\_\_water the garden

\_\_\_\_\_weed the flower bed

\_\_\_\_\_rake the soil

\_\_\_\_\_put the bulbs in the holes and cover with soil

\_\_\_\_\_dig little holes
