Budgeting

You have **\$15.00** in your wallet, you are going to buy a new shirt. Which one can you afford? Remember there is sales tax.

1. Circle the item in your budget:

 <small>+ quick info</small>	 <small>+ quick info</small>	 <small>+ quick info</small>
\$12.99	\$14.99 <small>online price</small>	\$24.99

2. Find the sales tax:

Write the item price → \$ _____

Find the sales tax, multiply → \times 1.0725

Total Cost → \$ _____ = *item price + sales tax*

3. Find out how much change you will have left:

In your wallet	\$
Total cost	— \$
Change	\$

4. Did you have enough money? _____
