

# Relación entre suma y resta

Pinta las regletas con dos colores distintos y completa las sumas y las restas:

8 1

$\square + \square = 9$

$\square + \square = 9$

$9 - \square = \square$

$9 - \square = \square$

7 2

$\square + \square = 9$

$\square + \square = 9$

$9 - \square = \square$

$9 - \square = \square$

# Relación entre suma y resta

Completa las sumas y las restas:

Diagram illustrating the relationship between addition and subtraction using a bar divided into 9 equal segments. The bar is divided into two groups: 6 segments (labeled 6) and 3 segments (labeled 3). A large curly brace on the right indicates the total is 9.

Related equations:

$$\begin{array}{l} \square + \square = 9 \\ \square + \square = 9 \\ 9 - \square = \square \\ 9 - \square = \square \end{array}$$

Diagram illustrating the relationship between addition and subtraction using a bar divided into 9 equal segments. The bar is divided into two groups: 5 segments (labeled 5) and 4 segments (labeled 4). A large curly brace on the right indicates the total is 9.

Related equations:

$$\begin{array}{l} \square + \square = 9 \\ \square + \square = 9 \\ 9 - \square = \square \\ 9 - \square = \square \end{array}$$
