My favorite star is definitely Brad Pitt! He is currently the most compelling actor in Hollywood! He grew up in Missouri but in 1985, aged 22, he left for California to try his luck in Hollywood. He had been in Los Angeles for two years – doing odd jobs to pay for his acting lessons – when he finally got a small part in the TV series *Dallas*!

When he won his Golden Globe for Best Actor in *Twelve Monkeys* only eight years later, he had already played in more than 15 films and had attracted broad public attention – a star was born!
Mike, 17, Seattle

This might come as a surprise to some of you; but I picked Abigail Breslin, born in 1996, as my favourite star!

When she starred in *Little Miss Sunshine* in 2006 she was only 10 and she had already acted in six films! She won six awards for her performance in the film and was one of the youngest actresses ever nominated for an Academy Award.

She is good, intelligent and really professional. Mark my words, she is a rising star!
Mark, 15, New York

I am a great fan of Julia Roberts. I am really impressed by her career and success. Only two years after she had left high school she got her first roles on TV and in films. She was only 19! Four years later, she turned into a world star thanks to her part in *Pretty Woman*! In 2000 she got an Oscar for Best Actress, for her tremendous performance in *Erin Brockovich*. I love her. She is classy, beautiful and so talented!
Jessica, 14, Detroit

Will Smith is a legend! He is the coolest, greatest actor ever! And the most talented too! Not many people know it, but even before he started his acting career in the 90s, he had won a Grammy Award for best rapper! Well, no wonder...he had founded his own group with Jazzy Jeff when he was only 12! From 1990 to 1996, he starred in a sitcom, *The Fresh Prince of Bel-Air* and became a very popular actor. You know the rest: most of his films are hugely successful blockbusters – *Independence Day* (1996), *Men In Black* (1997), *I, Robot* (2004) and on and on...

Sharmaine, 13, Atlanta
