

Reading Comprehension

Yesterday I was in the city of New York. There, I saw a wonderful tower in the middle of a lake, this tower had the shape of a person with a big Crown on its head. I noticed that people like to take photographs because it is a place for tourists. So people record videos or take photographs too.

Sometimes, I wanted to take photographs too, but we couldn't take one because my mom and me didn't have a great camera, it was terrible because we don't have memories of this incredible and amazing trip to United States.

Put into Spanish the text

1. María estaba en la casa
