LETTER TO THE EDITOR

June 17

I read the article *Building Goes Up Green* yesterday. It was very interesting, and I'm glad we're going to have a shopping mall that is better for the environment. There are too many ¹ buildings in this city that are bad for the environment.

Most buildings use _____ ² energy, so it's important that the new buildings will use solar energy.

I think that the mall has a lot of creative ideas to help the environment in other ways, too. Using cloth bags is a wonderful idea. People will save money and help the environment at the same time. There are _____ ³ plastic bags in landfills around the world, and every little bit helps! I also think there are _____ ⁴ landfills in this city, so I'm glad the shopping mall plans to have a recycling center, too. People throw away _____ ⁵ garbage, and I hope this will help more people recycle.

I hope you write more articles about green spaces in our city.

Sincerely,

Dennis Armstrong
