$$\begin{array}{r} \square \\ 56 \\ + 38 \\ \hline \square \square \end{array}$$

Diagram illustrating the first step of the addition process. A blue arrow points from the tens column (5) to the tens digit of the result box. A red arrow points from the ones column (8) to the ones digit of the result box. A red plus sign is to the left of the second number.

$$\begin{array}{r} \square \\ 68 \\ + 24 \\ \hline \square \square \end{array}$$

Diagram illustrating the second step of the addition process. A blue arrow points from the tens column (6) to the tens digit of the result box. A red arrow points from the ones column (4) to the ones digit of the result box. A red plus sign is to the left of the second number.

$$\begin{array}{r} \square \\ 75 \\ + 15 \\ \hline \square \square \end{array}$$

Diagram illustrating the third step of the addition process. A blue arrow points from the tens column (7) to the tens digit of the result box. A red arrow points from the ones column (5) to the ones digit of the result box. A red plus sign is to the left of the second number.

$$\begin{array}{r} \square \\ 69 \\ + 13 \\ \hline \square \square \end{array}$$

Diagram illustrating the fourth step of the addition process. A blue arrow points from the tens column (6) to the tens digit of the result box. A red arrow points from the ones column (3) to the ones digit of the result box. A red plus sign is to the left of the second number.
