Can you ..... this light between us?

Keeps me breathing through the storm

My ..... above the crowd

Can you ..... this light between us?

So come a little ..... closer now

It's in our eyes

You and me, we're ..... believers

Believing what we hold

But ..... we fall to pieces in the dust

So we should ..... like this forever

We're safer on the ground

When a ..... lights surround you

And you're moving to the sound

Don't waste ..... moment

It's waiting for ..... now

So dive in this new beginning

Let the glowing ..... you how

We'll take a ride outside together

The ..... are lined with gold

And where the good become the wanted, not the sold

Don't waste ..... moment

I'm waiting for.....now

So dive in this new beginning

And let the color ..... you how
