Farms

Example

There are farms in all parts of the world.

There are small ones and big ones. Farms are very important

1 we get a lot of our food from them.

2 farmers grow fruit and vegetables only. In

3 hot countries, these farmers grow things rice, mangoes and bananas, which need a lot of sun. In colder countries,

4 farmers grow carrots, onions and apples.

5 farmers have animals. Farmers keep to sell their meat, wool and milk.

6 Farmers have to work very hard day of the

7 year. They must their animals and water the things they are growing.

Farmers need to know about the weather every day. If

8 is too much sun, the ground gets very dry

9 and things grow. Too much rain is also bad for the fields.

10 farmers don't only look after animals, but they fix their farm machines and tractor engines as well.
