Five healthy foods that are bad for you!

1. Dried fruit

This has lots of sugar in it. People usually eat it a lot because they snack on it when they are at work. Eating half a cup of dried banana is like eating nine slices of bread. They have the same energy. Half a cup of raisins has the same sugar content as fifteen slices of bread!

2. Cereal

This is good for you before exercise like jogging or going to the gym because the sugar gives you energy. But it can be full of fat as well. One cup of cereal can have over 20 grams of fat.

3. Fruit yogurt

Yogurt with fruit also has lots of sugar. Often the fruit is in a sauce and that is full of sugar, too. But it's fine to eat it after doing sport for some extra energy.

4. Fruit juice

People think fruit juices are healthy, but this is not always true. Again, lots of them are full of sugar and don't have a lot of real fruit.

5. Nuts

These are good for you but only eat a little. Nuts have a lot of energy but also lots of fat, so it's important not to eat them all the time.

1. You shouldn't eat dried banana with bread. _____

2. Cereal has sugar in it. _____

3. Yogurt without fruit has no sugar. _____

4. Fruit juice is very good for your health. _____

5. Eating lots of nuts is a good idea. _____
